

Mandy Dufort

Full-Stack Software Engineer | Crofton, MD

301-325-0747 | armascetti@gmail.com | [GitHub](#) | [Portfolio](#) | [LinkedIn](#)

Summary

Full-Stack Software Engineer with experience building web applications using React, Python, Django, Node.js, PostgreSQL, MongoDB, and RESTful APIs. Skilled in Agile development, debugging, and delivering user-focused software solutions. Experienced in collaborating across technical and non-technical teams. Passionate about AI-assisted development and emerging technologies.

Technical Skills

Languages: JavaScript, Python, HTML5, CSS3, C#

Frameworks: React, Node.js, Flask, Express, Django, .NET

Databases: PostgreSQL, MongoDB

APIs: RESTful APIs, OPENAI API, third-party integrations,

Tools: Git, GitHub, Docker, Linux, Agile/Scrum, VS Code, Postman, Responsive Design, Debugging

Projects

AI Weather Dashboard: React, Node.js, Express, REST APIs, OpenAI API, Material UI

- Built a full-stack weather dashboard integrating multiple REST APIs.
- Integrated the OpenAI API to generate natural-language weather summaries.
- Designed responsive interfaces with Material UI.
- Implemented asynchronous API communication, state management, and error handling.

Pokémon Search Application: Python, Flask, PostgreSQL, Docker, Apache Kafka

- Designed and developed a full-stack application that allows users to search Pokémon data through a React frontend and Flask backend.
- Integrated PostgreSQL to persist Pokémon search history and implemented Apache Kafka to publish search events for asynchronous processing by downstream consumers.
- Containerized application services with Docker to provide a consistent local development environment and reinforce modern deployment practices.
- Applied RESTful API integration, database design, asynchronous event-driven communication, and debugging techniques throughout the application development lifecycle.

Make Your Marvel: Full-stack MERN (MongoDB, Express, React, Node.js) app integrating the Marvel API with React frontend and Node/Express backend.

Spacey: Django + PostgreSQL app using NASA API with structured relational database design.

Experience

Owner/Personal Trainer | Elevate Wellness Club | November 2025–Present

Leveraged CRM, scheduling, and data-tracking platforms to streamline operations and manage client information effectively.

Applied data-driven analysis to measure performance, identify opportunities for improvement, and support business growth.

Translated client needs into tailored solutions through structured problem-solving, communication, and iterative feedback.

Security Personnel Assistant | Xcelerate Solutions | March 2025– November 2025

Managed sensitive personnel data within secure systems while adhering to federal security and compliance standards.

Analyzed and processed security documentation, maintaining accurate records and supporting workflow efficiency.

Provided user support and cross-functional coordination to resolve issues and ensure smooth execution of security operations.

Software Engineer Mentor | Full Stack Academy | November 2022–April 2023

Mentored aspiring software engineers in JavaScript, React, APIs, and full-stack development, reinforcing industry best practices and problem-solving skills.

Guided students through debugging, code reviews, and project development, helping identify and resolve technical issues efficiently.

Collaborated with instructors and learners to support Agile-based workflows, technical troubleshooting, and successful project delivery.

Crisis Interventionist | Anne Arundel County Public Schools | August 2023-August 2024

Analyzed behavioral and performance data to identify patterns, evaluate outcomes, and support evidence-based decision-making.

Partnered with educators, administrators, and families to troubleshoot challenges and implement effective intervention strategies.

Managed confidential records and documentation while ensuring accuracy, compliance, and timely reporting.

Education

General Assembly: Software Engineering Immersive Certificate

Walden University: M.A. Special Education

UMBC: B.A. Psychology
